

How to assign learning – multiple employees

Warning! Before assigning training to employees, ensure that the training is not already assigned or recently completed. Follow the instructions in the **How to View your Employee's Learning Profile** Job Aid

Click on **My Learning**

1

Click on **My Team**

2

select **Assign/Remove Learning**

3

Select **Assign Learning**

4

Click the Green plus sign icon (+ **Items, Programs and Curricula**) to add a course

5

Enter a **Keyword** into the text box to search for a specific course and click on **Go**

6

To select a course, move your mouse over the course description area and click **Select**

7

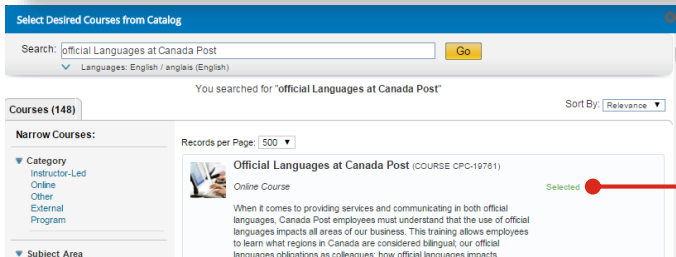

Refine your search results by **Category, Subject Area, Source or Delivery Method**

!

Click on the **X** in the top right corner once you have selected to the course

8

The course is now selected

!

How to assign learning – multiple employees

You can search and select other courses if you have multiple courses to assign (see bullets 3-6)
